Carlow Lay College
AND
ST. MARY'S PREPARATORY SCHOOL
Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:
Pension, including all extras, 35 guineas per annum.
Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School
In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.
Rector—Rev. William P Bourke.
Matron and Professor of French and Music—Miss Finneran.
English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:
Pension, including all extras, 35 guineas per annum.
Pension, exclusive of extras, £30.

JOYCE'S SPORTING AMMUNITINS

Muy Sres mios
Me es grato comunicar a Vds el resultado satisfactorio del nuevo examen quimico del 'Flu do Little' que acabo de practicar sobre una muestra de este especifico enviada por Vds a este laboratorio el 12 del corr. y fabricado por Morris Little e Hijo en Inglaterra.
Confrontando el analisis de esta muestra con mi analisis del mismo especifico practicado en Febrero de 1879 encuentro un aumento considerable en su grado de concentracion; su densidad es superior, la proporcion de fenoles contenidos en los aceites es mayor, y en una palabra lo considero no solo superior al producto primitivo, sino el mas concentrado y activo de cuantos de su clase he tenido ocasion de examinar hasta la fecha. Esta observacion se refiere, se entiende, exclusivamente a los especificos contra la sarna, que tienen por base los accites Hidro carburados y fenoles del alquitran y que no deben su eficacia al arsenico, al azufre, o al tabaco, sustancias que no existen en el 'Fluido Little.' Apesar de su mayor concentracion el Fluido se mezcla con el agua fria con la misma facilidad y perfeccion como antes.
Me repito de Vds

MALTINE
The concentrated extract of Malted Barley, Wheat and Oats, rich in all the nutritious principles, is free from Alcohol and Carbonic Acid, and possesses from five to ten times the virtues of any alcoholic or fermented Extract of Malt, as it contains much larger proportions of Nitrogen, Carbohydrates and Phosphates. It is therefore most particularly useful to mothers while nursing, in cases of insufficie at milk, to delicate and extenuated children, to persons of habitually emaciated body, to Invalids and Convalescents. In the treatment of Phtisis and Consumptive maladies, it has in many Hospitals, and in the practice of renowned Physicians, taken the place of Cod Liver Oil.
Maltine, in itself highly nourishing, is also a natural solvent of all farinaceous food and therefore a great axiliary to sound and healthy digestion; it is agreeable to the palate, so that even little children take it with relish.

Central Land Office,
68—PIEDAD—68
This office deals exclusively in the purchase and sale of National Lands and private Real-Estate. It possesses the most complete collection of Maps and Charts known in the country, and of Land Laws and Decrees issued since the last thirty years by the Nation and the Provinces. It has Agents all over the Republic, in its most important towns, and in the principal cities and harbours of Europe.
Information will be given of the quality and position of the lands sold recently by the Nation and the Province, and of those lands which are being offered for sale by the Province of Buenos Ayres.
The Office possesses the only official copy of the plans of the National Lands, and can dispose of several tracts of land on the Rio Negro, in Patagonia, near Bahia Blanca, Tres Arroyos, the Camps of the Salinas Grandes, and near Italo.
On a special plan are marked all the areas of land sold in the last two years in the South of this Province. This map is most invaluable, and gives a perfect description of all the properties in Bahia Blanca, Tres Arroyos, Pillahuinco, Sauce Corto and Curumalan.
The office disposes of the magnificent lands of the Plaza Montero concession, camps with excellent pasturages and plenty of water (irrigated by the Arroyos Sauce Chico and Sauce Corto, 27 Diciembre, Hinojal, Curumalan Grande y Chico, Pigué, Pescado, Venado, Cochenleofu, etc.) and safe from inundations.
Camps on sale in Sauce Corto, Olavarria, Junin, Lincoln, Pergamino &c.; also in the Provinces of Santa Fe, Cordoba, and Entre Rios.

IRISH IMMIGRATION.

No paragraph of River Plate news has had a greater run through the English, Irish and Scotch newspapers than the announcement that President Roca offered land on the Rio Negro for 50,000 Irish immigrant families; and in looking over our exchanges, we find that the matter has attracted such notice in Canada, that the Montreal papers have taken it up and asked the Canadian Government what steps it has adopted to counteract the offer of President Roca to the Irish people, and to secure for Canada a continuance of the Irish immigration to the Dominion.

It is possible that the great interest which President Roca takes in this question, if assisted by the Press at home and the rich Irish sheep farmers here, may accomplish very desirable results; but we confess that the difficulties in the way are so very great that we have our doubts. Our countrymen in Ireland know less about the River Plate than of any of the other new countries that compete for the surplus population of Europe; and to educate a whole people and overcome their prejudices against South America would, in the present state of affairs in Ireland, be utterly impossible.

On the other hand, our countrymen in the River Plate, from one cause or other, are not over-favorable to any increased Irish immigration to Buenos Ayres. In the early part of last year, when a large fund was collected for the relief of the distressed in the West of Ireland, it was proposed by one of the members of the Relief Committee to apply the funds towards paying the passages of a certain number of Irish families from Galway to Buenos Ayres, and application was made to the Governor of Buenos Ayres for a free concession of lands down at Olavarria; but the feeling of the majority of the Committee was so strongly opposed to the measure that it fell through; the money was forwarded to the Lord Mayor of Dublin, instead of being sent to Lamport and Holt, and thus the passage money for four or five hundred of our countrymen was merged in the General Relief Fund, and found its way to the poor people in the shape of oatenmeal and seed potatoes. It will probably be some time before so large and respectable a fund will be again got together in this city for an exclusively Irish object; and as no movement to foment Irish immigration to the Plate can have any status whatever without a respectable fund to support it, we cannot well see our way through a business that lacks both sympathy and relief.

One of the most representative Irishmen in Buenos Ayres assures us that if there were twenty Irish families landing on the mole from one of the steamers, there would be no possible means to find employment for them: and that any attempt to bring out Irish families to the Plate would be attended with the most disastrous consequences, unless such families had friends in the camp who are able and willing to look after them: and, that this helplessness applies as much to English and Scotch as to Irish families.

The success of the Welsh colony at Chubut amply proves that under certain conditions collective immigration from the British Isles to this country can succeed; and since our colleague the *Siglo*, which is a 'quasi' Government organ, betrays such great interest in this question of Irish immigration, we may invoke his aid to place the matter before the Government on a proper basis. If the Argentine Government is desirous to secure for the Rio Negro territory Irishmen and Germans, the same plan must be adopted as in the Swiss colonies of Santa Fe. The colonists must be brought out in a regular business manner, started on their farms, and supplied with means of existence for one or two years, after which they will be able to support themselves and refund the Government its advances. Mr Denner, the successful manager of four or five colonies in Santa Fe, is of opinion that if the Government gives a concession of, say a hundred leagues, a company may be found in Europe with sufficient capital, say £400,000 stg., to properly colonize the tract; but that to be attended with success, fully that amount of capital would be required by the company in Europe, and that quantity of land needed by the colonists in the Rio Negro. A colonist's family to succeed requires a farm of 160 squares, which gives ten families to the square league, or a thousand families to the proposed concession of 100 square leagues. It is all but a dream at the best for the Government to suppose that by sending agents to Ireland to lecture on immigration to the Plate, or publishing favourable notices of the country in the papers, the class of immigrants we require will ever come to this country; and though the Argentine Government may think it is doing a good deal in offering free homesteads to the Irish peasantry on the Rio Negro, the peasants look on it in a far different light and consider that in coming out here at all, they make sacrifices which the best sheep farms in Lujan would hardly compensate. The love of home and of soil is so engraved in the heart of the Irish peasant that the majority of them would prefer a few acres in their native counties to square leagues of matchless pasture lands at the Venado Tuerto.

President Roca's programme of peopling the Rio Negro territory with the hardy peasants from the North of Europe is one of the noblest projects of his enlightened and progressive administration, but such a programme must be obedient to certain laws and certain conditions in order to reach success. The climate of the Rio Negro is particularly adapted to our countrymen, and the virgin fertility of the soil is a guarantee to the colonists of success: furthermore, the Rio Negro district is exempt from locusts, one of the greatest drawbacks to the farmers in Santa Fe. To attain the object which the President has in view, we would throw out the hint that an Irish and a German Committee of Immigration be formed in this city, and that to each committee a free grant of 100 square leagues of good arable land, near to the river, be granted; with such a start it is possible that the committees in Buenos Ayres may be able to deal with parties in Europe who

Can be used with COLD WATER. Sole Agents MOORE & TUDOR, Maypu 95 and 127. Beware of imitations and falsification

will advance the necessary funds for colonizing the concession. To our colleague the *Siglo* we return our best thanks for the very great interest it has taken in the question of Irish immigration assuring it that no effort on our part will be wanting either to help our countrymen to happiness and independence in home stead farms on the Rio Negro, or to help President Roca in carrying out the brightest programme that ever an Argentine President attempted.

The Equateur's Mails.

London, January 4th.

Later news from Cape Town reports that Colonel Carrington has returned to Mafeteng, and intends in a short time to make another patrolling expedition. Legami, the Tembu Chief, has surrendered, together with many men of his tribe, and a large number of their cattle have been captured by the Colonial troops. Corroboration is also given to the news we published yesterday as to the threatening state of affairs in the Free State.

Negotiations are still proceeding with the Porte on the subject of the Greek frontier, and the cession of Crete is, our Vienna Correspondent hears, still under discussion, though Turkey has made no definite offer.

Mr Cowen, M.P. addressing his constituents last night at Newcastle, said that, in his opinion, one of the methods of dealing effectually with the Land Question in Ireland would be to establish a system of arterial drainage and reclamation. There were, he added, six millions of acres of waste land, and four millions of these could be brought under cultivation. Occupiers of land, he considered, should be made owners. He was prepared to support the Government in their attempt to deal with a most difficult problem.

The trial of the Irish Land Leaguers was continued yesterday, and the proceedings consisted entirely of the reading of speeches by the Government shorthand writers, a process so dull that everybody was soon wearied of it. The trial, our Special Correspondent says, has ceased to excite any interest in Dublin.

The New York papers publish despatches from Pensacola giving details of a most disastrous fire, which has almost swept that city out of existence. The fire broke out early on the morning of the 11th inst. in a business house near the centre of the city, and as the only engine in the town was undergoing repairs, little could be done to stay the flames. The wind was blowing briskly, and the fire swept unmolested across the portion of the town where the best buildings and heaviest stocks are situated. The place seemed for a time entirely at the mercy of the fire. The residents, however, finally formed themselves into bucket brigades, and after several hours of fighting, the fire was got under control. Several persons were seriously injured by falling walls. Nine-tenths of the business portion of the city is destroyed. The losses will amount probably to over 1,000,000 dollars. A later despatch states that five blocks in the heart of the city were burnt, involving a loss of over 500,000 dol., possibly 750,000 dols. Over 100 establishments are gone, embracing the main business buildings, and turning out about 50 families from their houses. The Custom House, with its records, Post Office, Merchants' Hotel, Brent's Bank, both telegraph offices, both newspaper offices, Dunn's Exchange Wright's dry goods house, and the County Clerk's office are among the well known buildings burned. At one time the loss of the railroad depot and adjacent mills seemed inevitable, and locomotives stood all night under steam ready to draw the company's equipments and other property out of town. The origin of the fire is unknown. It began in the building occupied by S Damiana as a confectionary store, the inmates of which barely escaped with their lives, two being severely burned, and saving nothing. The calamity is without precedent in the history of Pensacola, and business is almost suspended in consequence.

The death is announced of Mr J J Mechi, the well-known agriculturist, whose recent failure evoked so many expressions of sympathy. It took place at noon yesterday, at Tiptree Hall, Essex. Mr Mechi, the son of Giacomo Mechi, a citizen of Bologna, who early in live settled in England and obtained a post in the household of George III., was born in London in May, 1802, and was trained in a merchant house engaged in the Newfoundland trade.

LATEST FROM THE CAPE.

By a vessel just in from the Cape we have received the following late circular :—

Cape Town, Dec. 7, 1880.

Never, in its history, has this colony been engaged in a war so ruinous and so unnecessary as that which is now being waged with the natives on our borders. It was begun without justification and without preparation, and, owing to the want of means of suppression at the beginning, it has assumed such proportions, that a force of 16,000 men is now engaged on our side, the greater part of whom have been taken from their occupations, and are now wasting their time, and exhausting the resources of the colony, instead of being engaged in the profitable pursuits of peace ; and a double difficulty would appear to exist : the effective employment of such a large number of men, and the means of feeding them. An expenditure of £10,000 per day is now being incurred for this wretched war and, as it appears to be doubtful when it will end, we may have to face an outlay of £3,000,000, besides the incalculable loss arising from destruction of property, interruption of trade, loss of life, ruin to many from leaving their occupations and families, in many instances but ill provided for, to engage in the hardship and risks of warfare to which many will succomb, and from which others will return with impaired health, the effects of which they will feel for life. The work of civilisation which has been carried on for the last 25 years amongst the Ba utos has been undone. The trade of the whole colony is paralyzed by the present unhappy struggle, the effects of which will long be felt after the war is at an end, when with crippled resources, we shall be weighed with a burden of debt which we shall find it difficult to bear.

Owing to the war demand, drought prevailing in some parts of the Eastern Province, and interruption to agriculture, both native and colonial, there has been an enormous demand for oats, maize, barley, meal, flour and biscuit, and some thousands of tons have been shipped coastwise during the past two months, and owing to this abnormal demand stocks are being much reduced, and, if the present demand continues, we shall require to import Breadstuffs and Feeding Grain largely, as our own harvest will not supply one-third of our requirements.

Owing to the absence of so many consumers, general business is much depressed, both here and throughout the colony, and many up-country firms have desired their agents at the ports to endeavour to realise their shipments rather than forward them, the prospects of trade being so unfavourable.

The land line of Telegraph from this Colony to Natal having been cut, direct communication with the Commercial World has been interrupted, and this is much to be regretted, as we were beginning to feel the benefit of direct telegraphic communication ; and this shows the necessity of having the shore end of the cable landed at a port within the Colony. Unfortunately, we are about to be deprived of steam communication with Mauritius, as the Government o that Colony declined to grant a subsidy to Messrs Donald Currie & Co., who have been running their steamers to that Island at a loss.

Imports of goods have been unusually large for some time past, much in excess of trade requirements ; our markets are overstocked and goods are being pushed off at extremely low rates.

This season's clip of Wool is being brought in fteely, and large quantities have been sold for shipment at full rates.

Bills of Exchange offering on London, though considerable in amount, have not been in excess of our requirements for remittance, which have been large of late, imports of goods for some time past having been excessive. Banks have been buying 90 days document Bils at ½ per cent discount, and have been selling their own Drafts, 30 days sight at ½ p. c., and sight ¾ p c prem. Banks are discounting 4 months Bils and under at 7 per cent., and over 4 months at 8 p. cent p. annum.

There is a large quantity of Wool coming in here, and steamers are getting full freights, principally from this port ; there has not been alteration in the rates, which remain as given last month.

EDITOR'S TABLE.

People were rather puzzled yesterday to understand what the 'sudden disagreement' amongst the Parnell jury and the consequent postponement of the trial means. The trial has, we believe, not concluded through an ordinary disagreement on the verdict, as some parties think. Private letters from the North of Ireland say that things are getting as bad there as elsewhere. There is terrible distress amongst the families of the once opulent landlords, the greater number of whom are now living on credit, and many leaving the Island for foreign climes.

We are sorry to hear that Dr. Victorica, Minister of War, is unwell, and hope his indisposition is not of consequence.

We had crowds of visitors yesterday to inspect the map of the city's limits and the leather made by the new process. Both the leather and the limits seemed to meet with general approval.

The Provincial Government has issued an important decree ordering a new valuation for payment of Contribucion Directa this year, to be completed on 30th April. A great deal of property has become taxable since the last valuation, and a large increase may be expected from the tax.

The affair of Madame Cantilo in Flores has thrown the whole Village of the Plain into the wildest excitement. Strange that so extraordinary an accident should, like the burning of Chicago, be associated with the milking of a cow, Madame Cantilo, with her little children, stood close to the cow, to get a glass of milk, when suddenly the earth gave way and she fell into an old well. The brave lady had courage to shout from the bottom to keep the children from tumbling in. After superhuman efforts on the part of every one who is anybody in Flores, she was got up, but somewhat bruised, and, being in an interesting condition, the danger was still greater. We are happy to say that she is now almost convalescent. Although telegrams were sent to her husband, he received none, and coming home at the usual hour to his dinner, was horror-struck at the news. All's well, however, that ends well, and let people who have quintas look out how the old wells are closed up. The excitement in Flores baffles all description.

A soldier of the 1st Foot was shot dead instantaneously in a city barracks on Friday through the rifle of another accidentally going off.

It appears, from two or three recently reported bloody affairs in the Penitentiary, that the prisoners are allowed to carry knives. How is this, Governor O'Gorman ?

Whoever wants to read daily at a glance the pith and marrow of all the leading articles in all the newspapers of the city, should peruse the *Nacion Española*: its 'revista de la prensa' is the most exhaustive yet attempted.

If to-day prove as charming as yesterday, we strongly recommend a run down to the Tigre by first train, a 'header' into the river, and breakfast at Calzetta's Hotel on Calypso Island, with a full dish of fresh peaches to wind up with. The Tigre never looked more charming than it does this summer.

The suburbs 's'amusent'. We have never seen such a number of fetes as are announced for to-day : San Martin, Belgrano, Flores, Lomas, Quilmes, Lujan, and San Fernando have all balls, concerts, raffles or some kind of amusement on the cards for to-day.

The revolting custom of bearing maimed (purposely it is to be feared) children through the streets for begging purposes is increasing frightfully in this city. It is heartrending to see how some of these innocent children have been disfigured and tortured to serve as decoys for charity.

We publish some very late news from the Cape in another column. It will be seen that the commercial body there have formed a very strong opinion on the war now going on.

Mr Thomas B. Appleyard, ex-Deputy in the Corrientes Legislature, has started as commission agent and produce consignee in Asuncion. We wish him every success.

A tram car full of people returning from Flores some nights ago had a narrow escape. An engine, going at quite too quick a speed for such a neighbourhood, grazed the back platform of the car ; but for the driver giving his horses a lash, just in the nick of time, it was 'all over' with every soul in the car.

The Locust market is steady. Four reals per arrobe is now the price at the Candelaria Colony.

A French cook who was dismissed by his employer, a coach builder, some days ago, swore on the biggest ladle in the kitchen to be revenged. He bought half a pound avoirdupois of the strongest emetic to be had, and put it into the 'puchero' when cooking his farewell dinner. As all the peones dined (below the salt) with the coachfactor's family, the scene when the stuff began to act was awful. Every man present thought he was 'done for,' and prayers in divers tongues were repeated and 'reversed,' the Frenchman grinning in the kitchen like Mephistopheles in the garden. The lively Gaul is in prison, but treats the whole affair as a capital joke, saying the parties are all the better for the trick he played them, which he learned at school.

The *Capital* of Rosario says there is a Buenos Ayrean gentleman there now with orders to purchase 40,000 head of cattle, but the Santa Fe estancieros are asking such extravagant prices that he intends going to Cordoba, to see if breeders there are more reasonable.

Two fiery little Shetland ponies ran away at full gallop on Thursday in Belgrano with a beautiful miniature carriage which Don Nicolas Anchorena had had made for his children, and smashed it to bits against a paralso tree. Two servants in the 'cochecito' got a formidable 'spill,' as Mr A remembered the 'fiat experimentum' axiom, and would not allow the children to enter for the Trial Stakes. We are happy to say, however, that the servants were not injured, only slightly scratched.

The *Divino Catolico*, a new colleague, is announced to appear on 1st prox, Tuesday next.

Let families not be too seriously alarmed if they find no Pipe Water in their domiciles to-day. The filters are being cleaned.

THE TELEPHONE.

To the Editor of the *Standard*.

Dear Sir,

In your issue of this morning a letter appears signed W. S. Keyser, who seems to be afflicted because a Telephone is manufactured in London by the Gower-Bell Telephone Company, under special license, and under the Patents of Alexander Graham Bell and Mr. Frederick Allen Gower, sole proprietors of the Gower-Bell Loud-speaking Telephone, which I have the honour to represent in the couztries of the River Plate.

It will probably further annoy Mr. Keyser to learn that the English Government has recently ordered 2,000 of these instruments for the use of the British Post-office, and in the coming week, should he be at the Government-house, he may hear conversation through this instrument at a distance of more than four miles, against which a trial of the Bell Telephone of two squares can hardly command attention.

Yours very respectfully,
Benj. D. Manton.

SCOTCH SCHOOL.

To the Editor of the *Standard*.

Sir,

Does 'One of Them' want to do any real good? Let me suggest his making the school comfortable, clean and bright before he thinks of bringing out a new master.

Youngster.

SCOTCH CHURCH SCHOOL.

To the Editor of the *Standard*.

Dear Sir,

In reply to several letters which have recently appeared in the *Standard*, I beg to state that at a meeting of the trustees of the school, held a few days ago, it was resolved to call a general meeting of those interested in the resuscitation of the school.

The date of the meeting is not yet fixed, as it was deemed advisable that, inorder to give some information as to the antecedents of the school, a pamphlet on education, written by the late Rev. D. Brown in 1841, should be reprinted for circulation.

The pamphlet is now in the hands of the printer, and should be ready for distribution in about ten days, after which a meeting will be called by advertisement in the *Standard*.

Your obedient servant,
R. Inglis Runciman,
Hon. Sec.
Buenos Aires, May 29, 1881.

ON 'CHANGE.

Jan. 29, 1881.

Patacons	29.45
Cedulas A	88
National Bank Shares..	72½
Bonos	Par

The gold market ruled very firm, and the business of the day was a split liquidation, one half for end of month and the other half for end of February. The business for Monday promises to be tremendous, but the day's rate, it is thought, will also serve for the close of the month. Gold opened 29.40 cash and closed at 29.45, but at afterhours fully 2co,ooo were bought at 29.50, and rates closed then at buyers 29.46.

Cedulas are up to 88, and look going higher; every one says the stock is scarce and none to be had. A few months ago people thought there was more of it in the market than it could well bear. Much is said on 'Change of the mem. in the President's report to the Government authorizing the bank to arrange with mortgagors for the deficits after the sale of property—a new move, and one which show the industry of the talented young President to recover what was considered before so much lost money.

National Bank shares rule weak ; the scrutiny is over, and the parties we mentioned have been elected.

Exchange rules at 49½ drawers ; some American bills passed to-day at that rate. Paris 5.25, Havre 5.26.

There is some anxiety in the market owing to a very current rumour of a heavy failure in Havre. No one seems to have the name.

The Royal Mail steamer Guadiana will be out of quarantine at Montevideo about 5 p.m. on 30th and will be here on Tuesday morning. She will leave on 8th prox. direct for Vigo, Southampton and Antwerp. The R.M.S. Elbe is due at Montevideo on 3rd Feb., but will probably arrive sooner. She will leave this on 16th for Southampton and Antwerp vis Santos and Rio de Janeiro.

The payments on Change to-day were very large, and in some quarters money was felt very tight. It seems that some 40,000 salted hides were sold during the week, the price of the Libaros hides we hear is 48 rs, and one lot of salted horse at 17 rls. For wools the payments are reported to heavier than last Saturday, and what with the smart of acopiadores and the country judges summoning the buyers to come and receive their wools, or forfeit the 'seña', two note that there is more movement of late in wools.

The contract price for the new Boca mole is 3100 m/c p metre, and for the earth works 265,000 for the whole job.

Dr Carlos Wartemburg, the new Bolsa Director states that he will resign.

The sale of the pine cargo ex S B Hale, to arrive is reported, spruce at 9½, and pine at 10½, deliverable in Barracas.

The sale of two houses in Calle Reconquista alongside Sr Anchorena's, and one in Calle Corrientes, reserved prices reported.

The Archimedes sails on Monday for Antwerp and Liverpool full cargo. The Galileo expected in Montevideo to-night, leaves on 11th for Antwerp and Liverpool and has engaged—

3600 salted hides
3000 dry do
2200 bags linseed
700 bales
400 bags blood

The Euclid arrived in Rosario yesterday.

Terrible news from Bremen was current on 'Change; they say the whole city is under water, inundations such as not seen for 70 years. Many River Plate friends resided in Bremen; let us hope they are not all drowned.

Mr Brett, from Salto, was welcomed on 'Change. He reports everything out there thriving ; sheep in splendid condition.

Mr Casey sold this morning 700 arrs good wool at 108.

We hear of 100 bullock carts engaged to take out posts to fence another large estancia on the new camps in the North.

A prolonged Municipal meeting was held to-day, when the new members, Sres. Walls, Grondona and Font, took their seats. Mr Mulhall brought before the Board the very improper and over-crowded state of the Convalescencia. The matter was referred to Committee, to be reported on Monday.

The report of the Banco de Italia y Rio de la Plata was given round to-day, and we hold it for our next. The nett profits for half year amount to 123,398 pats gold, to be distributed as follows :—

We publish in our next the balance-sheet, which shows a heavy movement.

The wheat arrivals of the week amount to 14,814 fanegas, and 11,660 arrs flour. The arrivals of wheat were large, but prices rule about the same. Maize looks down.

Mr C F E Schultze of the leading German wine merchants Teofilo Meyer & Co., and Mr Carl Mahler of the German importing house of Dieckmann & Mahler arrived in the Equateur.

Mr. A Scharffenorth, ship-broker, reports the following charters :—

Germ. schooner Leonore to load jerked beef at £300 lump sum at Ensenada for Porto Cabello.

Ital. barque Barbara Preve to load in Buenos Aires for Valparaiso tallow at 20s in full.

Ital. barque Emilia 2° to load bales in B. Aires for Antwerp at 12s 6d in full.

Ital. barque Giacomino to load bones in B. Aires for Nantes at 29 francs in full.

Ital. brig Papa Felice to load grain in B. Aires for Dunkerque at 17fcs. 50cts. and 5 o/o.

Messrs Woodgate Brothers, shipbrokers, in their circular for the mail, give the following :—

Freights—
We have to report great stagnation in wools which are held by local speculators, rates down, and it has been impossible to fill steamers, several of which have had to leave in ballast, which is quite unusual in January. The number of bales sailed and engaged to date is 81,385 against 119,413 last year

	110,689 in 1879
	125,931 in 1878
	146,000 in 1877
	119,000 in 1876

And there remain about 170,000 bales still to ship, that is to say there is sufficient for four very active months, when freights by steamers will at once rebound. We think holders will soon be obliged to give way.

Sr Don Servando E Gomez, of San Nicolas, reports the following :—

Exports from San Nicolas from Oct. 1880 to Jan. 16th, 1881—
141 salted horse hides
2,610 dry horse hides
7,285 salted ox and cow hides
63,196 dry ox and cow hides
3,006 bales sheepskins
9,715 bales wool
68 beles hair
66 bales hidecuttings

Circulars were received to-day about the Blagden Dip, giving Professor Kyle's certificate &c., also Professor Wanklyn's.

Mr Kley, of the house of Malbran and Co., has been named on the National Bank Committee to revise the accounts.

As will appear by notices in another column, the 3rd quota on the Rio Negro lands is now called up; and on the 3rd February the coupons on the Bushental Bonds will be paid, and on the 8th the amortization. Soon this debt will be all paid off.

The plans of the new boulevard stretching from Arroyo Maldonado to Puente Alsina were inspected by many parties yesterday, the only objection being made to the new line being the loss of Contribucion Directa to the Province, which can be easily arranged by referring to the books and making an estimate of what that tax amounts to.

The *Nacion* published this morning another long and exhaustive article on the City Improvement Works, and our colleague renders good service to the public by discussing the question—but his estimates are altogether in the clouds. A million sterling concludes the works, and as for connecting the houses with the drains, the cost should be borne by the property, not the Government. The Water Board and others who have studied the matter estimate that a million sterling will finish the works, so as to make them rent-paying, and so far, and no further, the Government should go. Of course to spend four or five millions sterling for a city of only 250,000 inhabitants is sheer nonsense. The Government is now in receipt of good bona fide offers from responsible parties, and we hope to see the matter closed without further delay.

The great scare about the Custom House fines and the steamer agent has subsided without resort to any of those extreme measures spoken of; meanwhile, if the Custom House authorities are so very strict with the steamers, they should be equally so with the Port employees. The str. Portena the other day was detained entry one whole day because the Port Doctor thought it was blowing too hard to go off to the steamer. Not one hundred pounds would cover the expense to the steamer of this day's delay, whilst a sailing vessel that entered along with the Porteño got entry the day of her arrival; the reason is simple; the Port Doctor for sailing vessels lives in the Penton whilst the Port Doctor for steamers lives in Calle Florida and is not an early riser.

This is another splendid season for vegetables, such is the potato and maize crop that we believe potatoes will soon be selling at $3 per ar. and maize at $15 per fanega.

The week we close has proved one of much anxiety in circles far removed from the Bolsa-ring, and the failure of several wool acopiadores has very justly alarmed the whole country around the districts where they bought. For the first time the farmers discover that receiving 'seña' for their wool when selling some on contract at some very high price is but a snare, as in the event of the buyer becoming bankrupt before the wool is delivered, the farmer, unless he can return the seña and get rid of the contract will have to deliver his wool to the concurso, which, of course, amounts to entering into the general body of creditors and make a pro rata loss. Before the wool is all got in from the camp this year farmers and wool brokers may rest assured that the ruinous system adopted this year of selling to speculative acopiadores at imaginary prices will be completely played out. Next year all the wool of the province will be sold in the Plaza, unless the buyers outside are willing to pay the whole amount of the wool cash down, and before the sheep are shorn. North, South and West the losses to the farmers have been tremendous, and this, dealing with barraqueros and buyers that were thought in the camp to be as sure as the Provincial Bank. To-day we heard on 'Change of a party who had received $100,000 m/c. seña on signing the contract for his wool at, we believe, $112 m/c per arroba; the buyer has failed for several millions, and the concurso, of course, insists on the estanciero completing the contract and delivering up the 7,000 arr. of wool, to be sold in the Plaza for account of the buyer; of course, if the wool goes into the concurso then the estanciero will make a dreadful loss, and, if he escape by returning to the concurso the 100,000 m/c seña and keeping his wool, he will escape the lawyers and their charges. But we heard on 'Change this evening that orders from the Tribunal de Comercio are going out to the camp to embargo thousands and tens of thousands of arrobas of wool out on the estancias, sold on contract last November and December and lying at the farmers' houses ever since, because the buyers were unable to receive them. We caution all our readers outside against having anything to do with concursos.

To-day another meeting at the Provincial Bank was held to consider the question of consolidating the debt due by the Provincial Government to the Bank. The matter in all probability will be finally disposed of to-day. The bonds which the Government proposes to pay to the Bank will be secured by a lien on the half of the receipts of the Western Railway, at the present pledged for the payment of the coupons on the Provincial debt, and which debt now passes to the National Government; and is seems probable that the Bank on receiving these bonds will send them to London, where they will always stand as a very fair collateral for exchange credits.

The Rischuelo Committee has accepted the bid of Don Luis Paoleme for the construction of 350 meters of a new mole at the Boca, and also the bid of Messrs Sturm & Lizmann for the out works. We notice this matter as evidence that the Boca improvements are not forgotten, we should have preferred that such important works were confided to high standing English contractors, but in this country the Italians out bid us in everything. The lowest bid, however, is often times not the cheapest.

A starting of one or two new firms in this market is spoken of in well informed circles ; we also hear that a well known English engineering firm is about to open offices in this city ; these are good signs of improvement.

Mr Thomas P Appleyard has opened office in Asuncion, Paraguay ; we believe he is a descendant of old Don Benjamin Appleyard, who some forty years ago figured prominently in this market.

Our latest Montevidean advices are as follows—

"The Public Credit Office has published a notice to the effect that on 6th February the interests due on the Titulos Especiales will be paid, according to the agreement of 20th February, 1878.

"The pilots have held a meeting in which resolutions were passed on a uniformity of charge, and any pilot not acting up to same is liable to a fine of $f.500.

"The Captain of the Port is drawing up a plan of superintendence over the fire-men on steamers plying between the Mount and Buenos Aires ; this proposal will be submitted to the Minister of War.

"The Equateur brings 60 passengers for Montevideo and 229 for B. Aires. Several friends have returned in her from Europe.

"The new Santa Cruz light-house in the Santa Catalina harbour is now working. The light can be seen eleven miles off.

"The gold and stock markets show more animation ; there are many buyers at the current prices, but holders are more reserved.

"The Committee of paper money extinction calls for bids from $100 to $3,000 ; offers not suiting fiscal interests and bearing gold fractions will be refused.

"The export market is exceedingly dull ; opinion is unanimous that holders and buyers of wool must make some agreement. The efforts in saladero produce have given rise to some slight business—

4,500 qq. jerked beef from the Sta. Maria establishment in Paysandu at 50 rls. per quintal on board, Span. barque Paratons will take cargo.
2,000 ar. wool sold at reserved rates.
2,200 ar. wool do.
400 hides, rates not known.

"Imports are lively, and some stocks are moving off quickly. A meeting of Almaceneros has been held to arrange the sale of the cargo of the Catalina from Mallorca. Messrs Farini & Gonzalez were the consignees of the vessel, but their offers were not accepted. 150 bordalesas of Chilian wine were sold at reserved rates. These wines are arriving and selling pretty freely of late. They taste like the grape of the 'Schwarzwald' and Tyrolese valleys.

"The cargoes of Pernambuco sugars of the Daria and San Luis have been sold, but the rates are not yet known.

"The cargo of white pine of the Little Annie from Quebec has also been sold.

"In 'baldozas' 300,000 from Marseilles were delivered at reserved price.

"The following clearances are published :—
Fry Agais, Engl. lugger, for Capetown with 3,464 sacks of corn.
Maria Stella, French barque, for Mauritius with 92 mules and 600 sacks of corn."

The arrival of over 1,000 immigrants yesterday was much talked of ; the mole was crowded with brawny Italians, their knapsacks on their backs. In another year we will see these men better clad, better fed and happier men. The esteemed Commissary General of Immigration, Mr J Dillon, had plenty of work in hands ; we hear that many of these immigrants are already booked for the Gran Chaco.

STATE OF IRELAND.

Dublin, Jan. 3rd 1881

Reports of sinister designs have induced the authorities to take extraordinary precautions. Yesterday the guards on the upper and lower Castle yards were again doubled, and, as there is no visible reason for such measures, timid people are led to suspect that the Government are in possession of some secret information of a serious nature. There is now in Dublin an unusually large garrison of picked troops, numbering 6,000 non-commissioned officers and men, 250 officers, 1,000 horses, and 16 guns. The barrack accommodation in the country is insufficient for the increased numbers of soldiers, and, in addition to other temporary barracks which have been mentioned, the workhouses of Rathkeale, county Limerick, and Ennistimon, county Clare, are to be fitted up for the reception of detachments of infantry, each comprising two officers and 50 non-commissioned officers and men. Another detachment is to be sent to Loughrea, county Galway, as soon as quarters can be found for them. It has already been stated that trenching tools have been landed at the Pigeon-house Fort. These are being distributed among the various regiments. The possible contingency of the gas supply being cut off has also been provided for, and lanterns, candles, and match-boxes are served out. It is also arranged that sentries and pickets are to be increased.

Mr Gifford, of Ballysop, county Wexford, is being Boycotted by his tenants.

The widow Handley, who was evicted near Askeaton, county Limerick, two years ago, and is alleged to have received £70 compensation, has brought her case before the Land League, and a field gate belonging to her successor in the farm, Mr Patrick Mulcare, has been smashed to pieces.

In pursuance of a threatening notice that, as sure as her cow was injured, vengeance would also fall on herself, a cow belonging to Mrs Westropp, near Bodyne, county Limerick, has been found with its tail nearly severed from its body; and another cow, owned by Mr Gavin, who grazes part of Mrs Westropp's land, has been found with its tail cut off and the tail itself suspended from a tree. The Limerick newspaper which makes this report adds that no reason whatever can be assigned for the outrage.

Over 100 constabulary have been drafted into Newcastle West, county Limerick, for the purpose, it is stated of making a close search for 200 pounds of dynamite, stolen from the railway premises some months ago.

A Tullamore telegram says that yesterday, at a special sessions at Clara, seventeen persons were charged with rioting at the railway station and Boycotting Mr Charles Dudgeon, after a man had been sentenced to twenty years' penal servitude for firing at him. The accused were committed for trial at the assizes. Placards had been posted in Clara announcing a monster meeting, to show that the people would have their natural rights. A proclamation was issued prohibiting the meeting, and 120 police were drafted into the town. About 1,000 people assembled, but they quietly dispersed.

The *Standard* says it is not improbable that a further despatch of troops to Ireland will shortly be made. The War Office has been requested by the Admiralty to make arrangements for the relief of the Marine Battalion, as the detention of so large a number of that corps in Ireland is found to cause great inconvenience to the naval service.

The dead body of a missing farmer named Michael McKenna, of Derrynagoolane, has been found in the River Moy, at Ballina. Two men, named Gardner and Goolden, have been arrested for this murder and robbery. They were the last seen in his company, when he had in his possession a large sum of money. No money was upon the corpse when found.

The Central News Parsonstown correspondent writes:—

"Over 500 troops have been despatched to different parts of the country since Friday, and in this district 100 soldiers patrol the roads each night under the command of four officers. Several farmers have been Boycotted in the neighbourhood, and twenty-seven persons have been summoned to the next weekly sessions for intimidating local land agents."

Our Limerick correspondent writes that a most dastardly outrage was committed at Oola, Limerick, on Thursday night, Miss Ellard, who owns a large estate, returned from Dublin by the 6.30 train arriving at Oola and proceeded to her residence in an open carriage. When about three hundred yards from the railway station a shot was fired from behind a ditch at Miss Ellard, the bullet striking the carriage at her back and glancing off. Miss Ellard, who lately has taken the precaution of always carrying a loaded revolver, on hearing the shot at once drew her revolver and fired three shots at the would-be assassin, but without effect, the fellow at once running away. Miss Ellard returned to the constabulary station at Oola and reported the outrage to the police. No arrests have been made in connection with the outrage. Miss Ellard was a few days ago offered 'Griffith's valuation' by her tenants, but she refused.

Dublin is described as like a town in military occupation. There is such a force of military and constabulary in the city that no outbreak of the Land Leaguers during the approaching State trial is possible. Business is greatly depressed, and several hotels are closed or about to close.

A Land League meeting announced to be held yesterday in county Tipperary was prohibited by proclamation.

At Portadown on Friday night the house of a farmer named Berry, a tenant of Lord Lurgan, who had paid his rent in full, was burned to the ground, and a large store of potatoes also destroyed. The outbuildings of his neighbour White, who had also paid his rent, were burned, together with a large quantity of hay. In the same district a man named Wortley, who aids the police in their inquiries into agrarian outrages, was stabbed in the neck at the railway station. The people of the district refuse all information as to the outrage.

A riot took place in Harcourt-street, Dublin, on Saturday night between some Dragoons and Artillery and civilians. Some of the military were proceeding towards Portobello Barracks, when it is alleged they amused themselves by cursing Parnell, the Land League and the Fenians. A crowd gathered, and a fight lasted three-quarters of an hour, the soldiers being reinforced and the civilians strengthened. Stones were used on one side, belts and whips on the other. Cries were raised, 'down with the Boycott ——,' and 'there is a good time coming,' to which the soldiers replied with cheers for the Queen. Eventually a body of police divided the combatants. Another row took place near the Royal Barracks, where some of the Guards spoke depreciatingly of the Irish, and said they had been sent over to thrash them.

The Irish Executive has offered £200 reward for the discovery of the person or persons implicated in the murder of James Mulligan, a farmer residing near Edgeworths. town, county Longford, on the 16th instant.

A band was playing along the highway ia the neighbourhood of Bessborough, near Newry, on Saturday, which was accompanied by a crowd, many persons in which were armed with revolvers. The weapons were frequently fired, and in one instance a revolver was discharged at a hedge behind which there happened to be a man named Smith, who was severely wounded A person named McTaggart was arrested on the charge of firing the shot. Smith' depositions were taken, and he now lies in a precarious condition. It is said that the occurrence was accidental.

THE LAND LEAGUE IN SCOTLAND.

A correspondent has sent the particulars of a case, not at all uncommon under the Scotch leasing system.

The tenant took his farm 38 years ago, at about £350. which was the market value at the time. He drained extensively, built, and otherwise improved his farm, but at the end of a lease for the 19 years got no compensation. He then renewed his lease at a rent of £756, being £400 a year of increased rent; which, in other words, means paying his landlord £400 a year of interest on the money he himself had expended on the land during his first lease. A few weeks ago he again renewed his lease, still paying the £400 of increased rent on his first improvements, and got no compensation, although during his last lease he added 50 acres of wet bog to the cultivated acreage of the farm. This is a specimen of how the rents of Scotland have been raised. Half the agricultural improvements of Scotland have been done during the last 80 years by tenants' capital, without any legal provision for compensation. Those adverse legal presumptions and oppressive feudal laws, taken in connection with bad seasons, commercial depression and foreign competition, have been ruinous to practical agriculturists. Yesterday, in the market, a farmer, formerly wealthy, and who knows the country well, said to me, 'If it were not for the forbearance of bankers and manure merchants, the whole country would be one field of ruin, so far as farmers are concerned. This year,' he added, 'may do for itself, but it will not make up for the last eight or ten.' Under the new Hypothec Act, were it not that there are few farmers willing to take farms, landlords might clear the country of nine-tenths of farmers in fourteen days; but it is to be hoped that in dealing with the land question Mr Gladstone will clear the Statute-book of this 'scorpion tail' to the late Hypothec Act.

This letter needs no comment.

GREAT SOUTHERN RAILWAY COMPANY.

Lomas de Zamora, 29th Jan.

To the Editor of the *Standard*.

Dear Sir,

In to-day's paper appears a notice from the manager of the G. Southern Railway inviting the passengers interested in local trains to express an opinion on the proposed change from 5.15 to 6 p.m. from Central.

A petition was presented by 33 'abonados' asking that the 5.15 be put back to 5.45, (as there appears to be some great obstacle in the way of the 5.30) which suited every one.

There are only 7 trains in and 7 trains out during week days, and it appears absurd that there should be such difficulty in accommodating the public. The Western is also a single line, yet more trains are run, and the time table is excellent.

The dinner hour is a tender point with most people, especially Britishers, and the 20 minutes more or less are very important at that particalar hour, as they are also to those who attend the Bolsa. From 5.15 to 6 p.m. is a long jump, and did I not know the manager better, I would say that it was done to spite petitioners.

If the sidings at Banfield, Lanus, and South Barracas are too short to cross the Azul train, why not make them longer, or start the Azul 15 minutes later.

Dr. J. COLLIS BROWNE'S

(Ex Army Medical Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Sole Manufacturer J. T. DAVENPORT, LONDON.
